

2018 CHENANGO COUNTY RABIES CLINICS

ATTENTION DOG, CAT, AND DOMESTICATED FERRET OWNERS

1ST CLINIC FOR 2018

New York State Public Health Rabies Law requires **all dogs, cats, and domesticated ferrets to receive immunization against Rabies no later than four months of age** and NYS Ag & Markets requires **dogs to be licensed at four months of age.**

If your dog, cat or ferret is **not currently vaccinated** against rabies and is involved in biting an individual, it must be confined for 10 days at an approved facility at the **owner's expense**. If the animal is **currently vaccinated** and involved in a bite incident, it may be confined at home, for the 10-day period.

If your animal is bitten by or exposed to a rabid or suspected rabid animal and is **currently** immunized, a vaccine **booster dose must be administered within 5 days.** If **unvaccinated,** the animal must be adequately (approval required) quarantined for 6 months in accordance with Public Health Law.

When attending a rabies clinic, animals must be under control. Dogs must be on a leash. Cats should be transported in a box, crate, pillowcase, or other container. **Animals vaccinated for the very first time must be re-vaccinated the following year to qualify for three-year coverage at that time.** **Please bring the previous vaccination record to verify if your pet is eligible for 3-year coverage.**

DATE

PLACE

TIME

SATURDAY, MARCH 24, 2018

**Norwich Fire Station
31 East Main St., Norwich**

9:30 – 11:00 AM
