

“Young Eagle” Flights

Lt. Warren Eaton Airport, Route 12, Norwich NY

Has your son or daughter ever asked about flying in an airplane or even becoming a pilot? Chapter 1204 of the Experimental Aircraft Association is pleased to offer Young Eagle flights at the Norwich airport. Children ages 8 through 17 are invited to register and take a local flight with a volunteer pilot. These flights are free of charge to provide an educational exposure to the world of flying. Parent or legal guardian signature is required on the registration form. Registration can be at any time, and flights will be arranged as weather and volunteer pilot availability permit.

For more information, or to obtain a registration form in advance, contact Dave Dibbell at 607-373-9195 or via e-mail at dibbelld@frontiernet.net
