Emergency Preparedness:
What you should now

Preparedness is an everyday task for everyday life. Being prepared for all types of emergencies are crucial and the best way to protect you and your family is to prepare for the unexpected before it happens. The occurrences of natural and or manmade disasters are a reality. Disasters can strike quickly and may happen without warning. It can force you to evacuate your neighborhood, workplace or school or it can confine you to your home. The best way to make you and your family is to be aware and prepare. The Chenango County Health Department encourages you to make a kit, make a plan and be informed.
